ABOUT BLUE PROJECTS AND SERVICES

Blue Projects and Services Private Limited is a Karnataka-based, multi-sector project execution company operating at the intersection of government contracting, field research, and AI/technology services. We bring operational discipline from government tender execution to AI data collection, human behaviour research, survey operations, and corporate consulting — backed by trained field teams, digital quality control (GPS verification, real-time reporting, back-checks), and full regulatory compliance. We operate as a prime contractor, JV partner, subcontractor, or specialist field execution partner depending on the engagement.
